

“Chickens Come Home to Roost”

US imperialism and the capitalist regime have shown their ugly face January 6 in the U.S. capital.

The thugs who follow the buffoon, Donald Trump, stormed the Capitol while the senators and congressmen were in the ceremonial process of ratifying the election for the next president, Joe Biden.

This was a failed coup. United States imperialism has conducted many coups in other countries including Iran, Vietnam, Cuba, Venezuela, Nicaragua, Chile, Dominican Republic and other countries in Latin America.

This has gone too far for the country that calls itself the greatest democracy in the world and the Capitol “the shining city on the hill”.

The traitor in the White House must be arrested and removed from office.
